

Ready for Action

2020 OUTLANDER

ENJOY THE CONFIDENCE OF CONTROL

Outlander is equipped with standard Super All-Wheel Control (S-AWC) featuring four driver selectable modes for superior performance and driving confidence. **ECO** automatically transfers torque to the rear wheels when loss of traction is detected, enhancing stability beyond the typical, fuel efficient 2-wheel-drive mode; **NORMAL** offers well-balanced, 4-wheel-drive performance resulting in enhanced fuel efficiency, traction, high-speed stability and predictable handling based on road and driving conditions; **SNOW** provides improved traction and stability specifically for snow-covered or slippery roads; and **GRAVEL** provides maximum torque distribution across all four wheels at all times, for drivers who prefer to take the road less travelled, or for situations where more traction is required.

JUST SAY
GO!

With its distinctive exterior styling and intelligent engineering, the Mitsubishi Outlander combines great looks and practicality in an action-ready SUV.

For 2020, the ever-capable Outlander comes with standard family-friendly seating for seven and Mitsubishi Motors' rally-proven Super All-Wheel Control (S-AWC) – the world's most advanced all-wheel control system. To go along with the prowess of S-AWC, **Outlander offers you a choice of two fuel-efficient powertrains:** a smooth-running, 166-hp MIVEC 4-cylinder engine mated to a Continuously Variable Transmission (CVT); or a robust, 224-hp V6 with a 6-speed automatic and the ability to tow up to 1,588 kg (3,500 lbs.)* Both powertrains deliver confident, reliable and capable performance to take you effortlessly through city traffic or down country trails.

IT'S ALL ABOUT COMFORT & CAPABILITY

The 2020 Mitsubishi Outlander checks all the boxes when it comes to comfort and capability.

There's standard 3-row seating and a choice of two new Display Audio systems: the standard 8" Smartphone Link and the premium, 8-speaker Mitsubishi Power Smartphone system, both equipped with Apple CarPlay, Android Auto™ and SiriusXM® Satellite Radio with 3 months of complimentary service.

Of course, there's much more – like standard dual-zone automatic climate control, heated front seats and an available heated steering wheel for all-around comfort. And you can treat yourself to upscale availabilities that include luxurious leather-appointed seats and the bright, open-air driving enjoyment of a power sunroof. Plus enough cargo space to handle everything a busy family needs to carry.

Outlander offers you everything you need to make daily routines and leisure-time adventures a pleasure.

DESIGNED & ENGINEERED WITH YOUR SAFETY IN MIND

Safety is paramount in the design and engineering of every Mitsubishi Motors vehicle, including the Outlander.

It begins with a Reinforced Impact Safety Evolution (RISE) body, utilizing high tensile strength steel and crumple zones that absorb and disperse energy during high-impact collisions. Strategic reinforcements at key body points complement its side-impact door beams, giving your Outlander a stable, secure base that's worth its weight in safety.

And the protection continues inside, starting with advanced airbag systems and driver assistance technologies, and continuing with an available Multi View Camera System (MVCS)[†] featuring a virtual 360° bird's-eye view around the vehicle, allowing you to safely and confidently navigate tight driveways and parking spaces.

WARRANTY PROTECTION

AT MITSUBISHI MOTORS, WE'RE SO CONFIDENT IN THE QUALITY, RELIABILITY AND DURABILITY OF THE VEHICLES WE BUILD THAT WE BACK THEM WITH SOME OF THE MOST COMPREHENSIVE WARRANTIES AVAILABLE.

THESE SAFETY FEATURES ARE STANDARD
ON ALL OUTLANDER TRIM LEVELS:

ANTI-LOCK BRAKING SYSTEM (ABS)

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

ACTIVE STABILITY CONTROL (ASC)

BRAKE ASSIST SYSTEM (BAS)

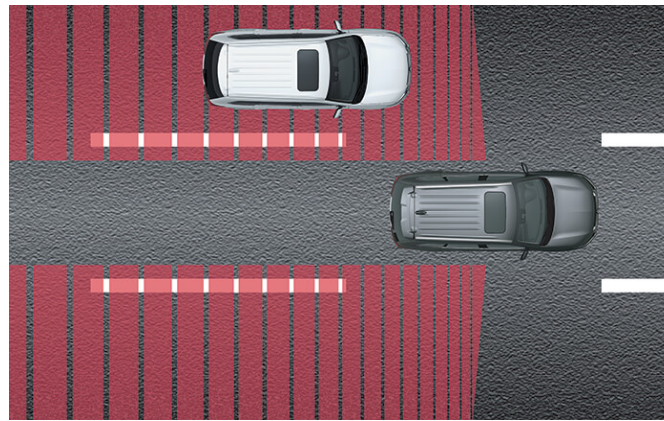

TRACTION CONTROL LOGIC (TCL)

TIRE PRESSURE MONITORING SYSTEM (TPMS)

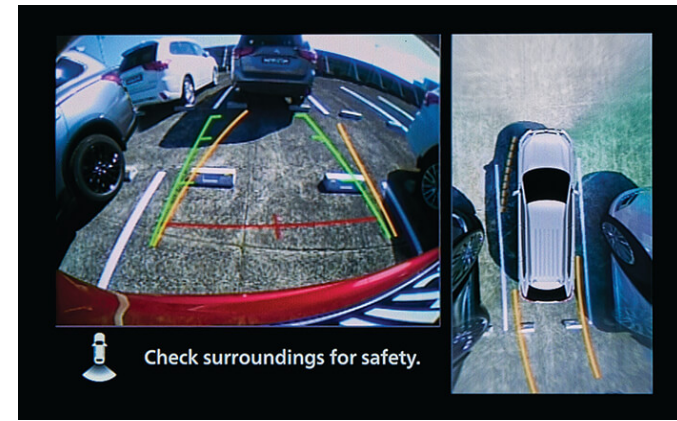

7 Standard Airbags

Help protect you and your passengers in a variety of collision situations. Protection includes dual front airbags, front seat-mounted side-impact airbags, side-impact curtain airbags (front and rear) and a driver's knee airbag.

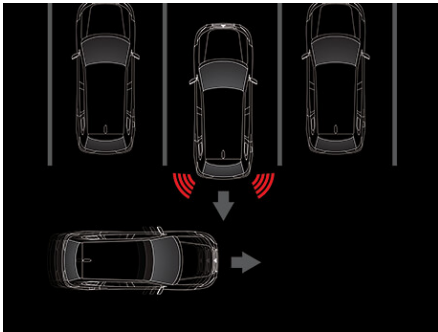

Blind Spot Warning (BSW)¹

Alerts you when a vehicle is in or approaching your blind spot. When a vehicle in the next lane is travelling at the same speed or faster in the detection areas, a warning light illuminates on the corresponding side mirror. If you switch the turn signal on, the warning light on the corresponding mirror will blink and the system will beep three times to alert you that it is unsafe to change lanes.

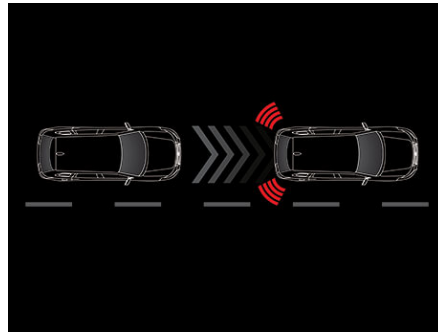

Multi View Camera System (MVCS)¹

Creates a virtual 360° panoramic bird's-eye view of the area surrounding the vehicle, allowing you to navigate tight driveways, look out for objects in blind spots, and park with confidence and safety.

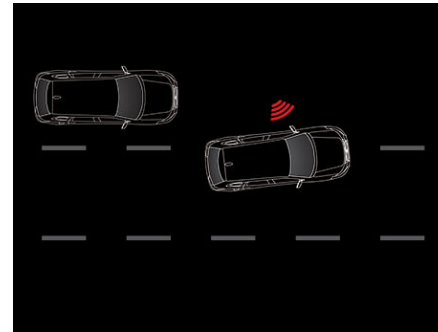

Rear Cross Traffic Alert (RCTA)¹

Detects a vehicle approaching from the side while you're backing up. It alerts you with flashing warning lights on both side mirrors, a buzzer that sounds in the cabin and a warning message that appears in the instrument cluster.

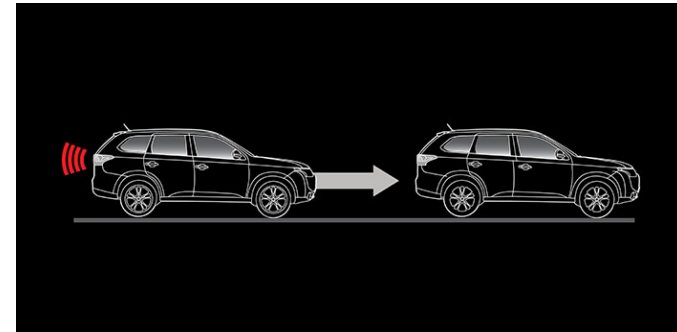

Adaptive Cruise Control (ACC)¹

Uses radar technology to judge distances between you and the vehicle ahead, helping maintain a safe distance. If that vehicle moves out of your lane or goes beyond your set speed, the system will resume your set speed.

Lane Departure Warning (LDW)¹

Uses an onboard camera to monitor lane position in front of the vehicle, providing audible and visual alerts if it detects your vehicle leaving the lane unintentionally.

Forward Collision Mitigation (FCM)¹

Utilizes both laser radar and camera technology to determine if a frontal collision is imminent. If so, it warns you with audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of the collision and, if possible, prevent the collision altogether.
